

The map displays a vast network of celestial bodies and their connections. Key features include:

- Planets:** Numerous planets are labeled, such as Arnaugh (0128), Twilling (0328), Ghinor (0728), Praetor (0928), Bubbagar (1328), Arakala (1728), and many others. Each planet is associated with a unique identifier (e.g., 0128, 0328, 0728, 0928, 1328, 1728).
- Star Systems:** Star systems are marked with letters (S, D, X, B, E, C, A, N) and symbols (dots, crosses). Examples include S.C., D.A., X.A., B.A., E.A., C.A., A.A., and N.A.
- Trade Routes:** Lines connect various points on the map, representing trade routes between different planets and star systems.
- Color-Coded Regions:** The map is divided into regions of different colors: maroon, green, and light blue.
- Imperium:** The word "Imperium" is written in large blue letters in the lower-left quadrant, indicating the central region of the map.
